

Bruce Miller

USCF Cat.4 Road Cyclist & Sport Class XC MTB Racer

2007 Objectives

I am currently seeking product sponsorship for the 2007 Mountain Bike XC race season. I will be participating in the West Virginia Mountain Bike Point Series. WV MBA is a cross country race series consisting of approximately 15 races throughout the states of West Virginia and Ohio. I also hope to participate in the 24 Hours of Big Bear on a competitively oriented team. I plan to have many podium finishes this season. Outside of racing I plan on donating time doing trail maintenance. I also plan to lead some group rides with riders at all levels for our local cycling club. I hope to help some newer riders gain confidence with their riding and hopefully introduce some of them to racing.

What you get for sponsoring me.

By sponsoring me you will get an individual with a great attitude for cycling and an excellent representative for your products and company. If you provide stickers with your company name I will be happy to display your logo while racing, training, and on my vehicle. I am a very friendly person and will enjoy advertising for you by talking about your product to as many people as possible. I cannot promise to be on the podium at every race but I can promise to promote your product in a positive way while doing as much as I can for the cycling community.

Cycling Experience

I have been participating in the West Virginia Mountain Bike Associations Point Series since 2003. I have raced in the 2005 24 Hours of Big Bear. I also try to ride different locations as much as possible to gain more experience. In the past couple of years I have traveled to Moab Utah, Pisgah North Carolina, and Tsali North Carolina along with some less known locations. I also try to visit Myrtle Beach South Carolina and New Smyrna Florida during the winter months to get some road cycling in. In the past I also rode the American Lung Association Greenbrier River Trail ride. That is a three day 100 mile ride that benefits the American Lung Association. I did that ride beginning around 1988. I rode it eight or nine times.

- 🏆 Race the Trace – 14th place
- 🏆 Tour the Lake – 16th place
- 🏆 Challenge at Mountwood – 17th place

Goals for 2007

Personal Bio

My primary goal for the 2007 is to win a few races and then move up to expert class and pay my dues for the remaining of the season. I also hope to do some more road races and possibly earn enough points to move up to a cat 3.

I work for the West Virginia Division of Highways and also work for my family's business of making and selling Duck's Green Tomato products. I am married to my lovely wife Raechelle. My other hobbies include billiards, playing with my pet Rat Terrier and enjoying my aquariums and taking some time to relax. I began riding mountain bikes in 2000 which was the catalyst for me to quit smoking and lose weight. It worked since I no longer smoke and I am 50lbs lighter. I have been hooked on biking ever since. I am still hoping to lose another ten pounds so I believe that will make the races even more enjoyable. On top of that I will be working with Coach Fetty so I'm sure that I will be able to push myself much harder in the races allowing me to enjoy myself even more and achieve my goals of success in this sport.
